FAITH FAITHFUL USENIDEH

Data Analyst

Port Harcourt, Nigeria | 07064719570 | usfaith822@gmail.com | linkedin.com/in/faith-usenideh-435045234
GitHub portfolio: github.com/Faith-Faithful-usenideh

PROFESSIONAL SUMMARY

Detail-oriented Data Analyst skilled in Excel, SQL and Power BI, with hands-on experience preparing and quality-checking data for AI model training. A background in Linguistics and Communication adds strong accuracy and the ability to explain findings clearly to non-technical teams. Seeking a Junior Data Analyst, BI or Reporting Analyst role, turning raw data into clear reports and dashboards that support better business decisions.

TECHNICAL SKILLS

- **Data querying and analysis:** Microsoft Excel (advanced), SQL
- **Data visualisation:** Power BI (dashboards, DAX measures, KPI reporting)
- **Data quality:** Data cleaning, annotation, labelling, review and quality control
- **AI tools:** AI workflow automation and agentic AI tools · **Currently learning:** Python, Tableau
- **Soft skills:** Clear communication, attention to detail, team coordination

PROJECTS

Hospital Admissions & Treatment Outcomes Dashboard 2026

Excel · Power BI · DAX | github.com/Faith-Faithful-usenideh/Hospital-admissions-dashboard

- Cleaned 984 patient records in Excel: standardised department names, converted text billing and dates, and resolved 273 invalid date records (28%).
- Built a 6-page interactive Power BI dashboard with DAX measures tracking admissions, length of stay, readmission and recovery rates.
- Found a 26.8% readmission rate (up to 29.5% in Neurology) and that patients aged 56+ make up 83% of referrals.
- Recommended referral planning for older patients, discharge reviews in Neurology and ICU, and data-entry validation for dates.

Seattle Airbnb Market: Revenue & Pricing Analysis 2026

SQL Server · CTEs · JOINs | github.com/Faith-Faithful-usenideh/airbnb-sql-analysis

- Analysed 6,442 Seattle Airbnb listings in SQL Server to find where revenue concentrates and how prices vary across 88 neighbourhoods.
- Used a CTE to avoid join duplication and REPLACE/CAST to clean text prices; found Belltown leads revenue at $18.93M.
- Showed 81% of revenue comes from listings under $700/night and a 4.8× price gap across neighbourhoods; recommended neighbourhood-based pricing.

HR Analytics Dashboard: Why Good People Leave 2026

Excel · Power Pivot · DAX | github.com/Faith-Faithful-usenideh/hr-analytics-dashboard

- Built an interactive Excel dashboard with Power Pivot, DAX measures and slicers answering 15 HR questions for 961 R&D employees.
- Validated KPIs against raw data with COUNTIFS/SUMIFS, correcting the termination rate to 16.1% and re-basing exit trends on leaving dates.
- Found overtime triples the leave rate (27.3% vs 8.6%) and leavers earned 38% less; recommended overtime caps and early-career pay reviews.

EXPERIENCE

AI Annotation Specialist | Atlas Capture 2026

- Annotated and reviewed first-person video data, labelling key actions, objects, hand movements and interactions to project guidelines.
- Reviewed and corrected existing labels, improving the quality and consistency of AI training datasets.

Volunteer & Group Lead | AI Leverage Academy 2026 – Present

- Lead a group of community members, coordinating assigned activities, tasks and deliverables.
- Build and maintain spreadsheets tracking members' attendance, scores, timelines and progress.
- Test AI automation and agentic AI tools (Juno, Compass Pro) to identify practical uses in business workflows.

EDUCATION

B.A. Linguistics and Communication (Second Class Upper) | University of Port Harcourt 2021

Research project: Phonological Variations Among Annang Speakers

TRAINING & CERTIFICATIONS

- Data Analytics Training | Speedlink Institute of Technology and Innovation — 2026 · Data Analytics Bootcamp | Gerald Legacy Empowerment Foundation — 2025
- Data Analyst Bootcamp | Alex The Analyst — 2025 · Practical AI Tools and Workflows | AI Leverage Academy — 2026 (in progress)
